

RAIMUNDO JOSÉ MANUEL ESTÉVEZ SALVO

Santiago, Chile · [linkedin.com/in/raimundo-estevez](https://www.linkedin.com/in/raimundo-estevez) · raimundoestevezs@gmail.com

PROFILE

Computer Engineer with experience in telecommunications and regulatory compliance. Specialized in data engineering with Python and backend development using Java and Spring Boot. Skilled in SQL, Docker, and Git, with additional knowledge of AWS and GCP. Known for analytical thinking, problem-solving abilities, and proactivity. Seeking to join a development team that uses modern tools such as Git, cloud services, containers, and CI/CD, while applying best practices like SOLID.

EXPERIENCE

Ceptinel, Python Developer

October 2025 - Present

- Completed a long-stalled project that had been stuck for eight months.
- Worked directly with clients to gather requirements and resolve questions.

2080 Sistemas y Servicios, Data Analyst (Client: Telefónica Chile - Movistar)

August 2023 – October 2025

- Developed ETLs with Python and SSIS for SQL Server database automation, with the objective of report generation in Excel and dashboard development in Power BI.
- Implemented automatic notifications via email using Python improving the monitoring of key processes.
- Generated actionable insights through a knowledge discovery process, achieving \$185M+ in monthly savings.

Portfolio Project, Developer and ML Specialist

August 2024 – December 2024

- Developed an application to diagnose users using a ML model that generates automatic alerts.
- The stack used was React.js and Node.js with a PostgreSQL database, and Scikit-Learn for ML.

Portfolio Project, Project Leader and Developer

March 2023 – July 2023

- Lead the development of an application for the management of work orders of a dental laboratory.
- The stack used was React.js and Node.js with a MySQL database.

Agromatch, Intern in the Technology and Development Area

January 2023 – March 2023

- Developed software solutions, dashboards, programs for automatic downloads from the web, and automatic data extraction from the web. Presented developed functionalities to the team.

ACADEMIC BACKGROUND

Duoc UC, Santiago, Chile.

Computer Engineering, 2019 - 2024

Duoc UC, Santiago, Chile.

Programmer Analyst, 2019 - 2023

CERTIFICATIONS

Python Certified Associate Programmer (PCAP-31-03)

Python Institute - 2025

Python Certified Entry-Level Programmer (PCEP-30-02)

Python Institute - 2025

Microsoft Azure AI Fundamentals (AI-900)

Microsoft - 2024

Data Science Specialization

Duoc UC - 2024

Advanced Excel

TELEDUC - 2024

Scrum Fundamentals

Certi Prof – 2023

English B2 Level

TOEIC - 2022

SKILLS

Languages

Java 11+ – Intermediate
Python 3.6+ – Intermediate
Javascript – Intermediate
SQL – Intermediate/High

Framework

React – Intermediate
Node.js – Intermediate
Spring Boot - Intermediate

Tools

Git – Intermediate
Excel – Intermediate
Power Bi – Intermediate
Docker - Basic

Cloud

GCP - Intermediate
AWS - Basic
